

COMMUNIQUÉ

Dear Clients and Friends;

It is with great pleasure I announce you today the launch of your all-new Web Site: www.Qualicode.com

I am very proud of it because it's more than some web pages. It represents a major orientation steering. In fact, the Site will be our new Corner Stone. It will become the central link to our client community. It shall be our main communication means.

The Site gives information on our Company, Products, Modules and Services we offer. Also, very soon you will receive your Partner Login that will give you access to the Client Area where you will find Refresh courses, Procedures and What's New in the form of writing but also of Clips.

Another main characteristic is that through the Site's Forum, You and We shall become an online community. Each Partner will be able to address questions to Qualicode, but also at the same time to the other partners in the community which represent a lot of people. All Qualicode's communications will be posted on the Site to keep you informed on new developments and announcements.

Also, Qualicode is turning to Online Video culture! So new features will be explained and showed on video, as well as procedures and refresh courses. Many other features are planned which are going to be made available as soon as ready.

After all, Qualicode and clients represent the largest network of CSSS/CLSC and EÉSAD in Québec. So it is time to have the network running!

I invite you to visit your Site and to come back regularly. Stay posted!

Nicolas Bastien
President
Qualicode Software Inc.
www.Qualicode.com

P.S. : I would like to highlight the extraordinary contribution of our Marketing Manager, Mr. Serge Morel for his efforts in the implementation of this project. A big THANK YOU!
